The Commission amounts will be deducted from your Funding Source and settled immediately after the corresponding Transaction is completed.

These agencies may keep a record of your information and the searches made. However, we do not perform a credit check and any search is for identity purposes only and will be recorded as such. We shall keep records of the information and documents we obtain to verify your identity in accordance with all applicable legal and regulatory requirements.

For the purposes of anti-money laundering prevention and combatting terrorist activities, WorldSec reserves the right to request any additional information and documents from you about you and/or your Transactions, and suspend your access to your Account anytime in case the documents or information provided by you are unsatisfactory or insufficient, as WorldSec decides in its sole discretion.

Should the documents fail our internal identity or security checks – for example, if we suspect that they have been tampered with, or are in any way proven to be misleading or misrepresenting – we shall be under no obligation to accept such documents as valid, and under no obligation to provide feedback on the exact nature of our findings with regards to these documents. In addition, we may request that you attend a video call to verify your identity.

It is your responsibility to keep your identification, security information, password, security questions and answers and other information specific to your Account confidential and never disclose them to anyone. Should another person gain access to your Account by passing all security validation and verification checks, WorldSec may be entitled to treat any Transaction conducted by that person as valid and authorised by you and will not be responsible for any loss or damage you may incur as a result.

Your Account access will be protected by one of the verification mechanisms allowed by WorldSec and chosen by you in course of the Account application. You will be able to activate an additional verification mechanism to ensure your Account is protected from an unauthorized access and use. For instance, if you chose to use a password or a social network account log in as an authorization mechanism, you may activate an SMS verification that will request you to enter an SMS-code sent by WorldSec every time before accessing the Account. Activating an additional verification instrument is advisable to strengthen your Account's security.

If you have any indication or suspicion that your Account, password, or other security details are lost, stolen, misappropriated, used without authorisation or otherwise compromised, you should change your password and contact WorldSec immediately by sending an email at wallet@settlepay.support. Any delay in notifying WorldSec will result in you being liable for any and all losses.

We will not be held liable for any Transaction that was unauthorised or incorrectly executed if you have failed to contact us without undue delay – in these circumstances you may be held liable for the entire loss of the Transaction. You should also describe the disputed Transaction in writing, setting out full details of the Transaction and your reason for disputing it.

In the event of a debt arising on an account that is directly related to confirmed cases of fraud, WorldSec has the right to use the balance of funds on such account for the purpose of repayment of the debt.
